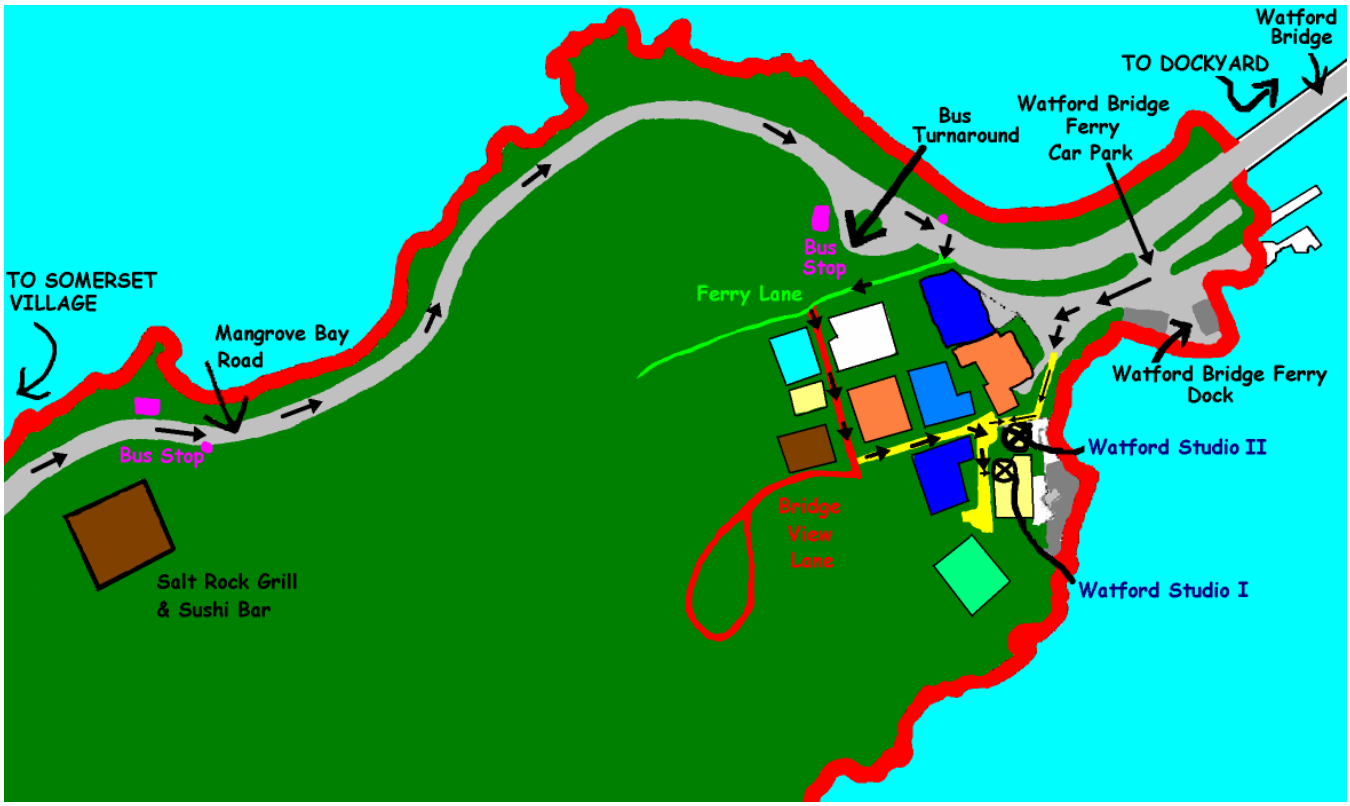
Directions to Watford Studios
3 Mangrove Bay Road, Sandys Parish MA 01

If your driver does not know where Watford Studios are, he or she may remember a restaurant called "The Village Inn" or "Gamefish Inn" at Watford Bridge in Somerset, which is the building in which we are located. If not the detailed directions are below:



Drive through Somerset Village towards Watford Bridge. Just before the Bridge, immediately after the bus turn-around/layby (on your right) turn right up **Ferry Lane** (coloured green above). After about 50 feet turn left up the hill on **Bridge View Lane** (coloured red above) (this is not sign posted).

Just before you get to the houses at the top of the hill you will pass in between two houses that are under construction, turn left after the peach house and drive down the hill towards the green/blue house on the left. (roadway coloured yellow above)

At the bottom turn right at the yellow pillars and you will see a parking bay.

Studio I is ½ way down the lane there is a terra cotta sun to the right of the door.

To get to Studio II walk through the yellow pillars down a couple of steps to the landing and you will see a wooden door on your right.

If you have very little luggage or your luggage is not heavy, [or the driver get's lost]. Drive into the Watford Bridge Ferry Car Park, go to the end and you will see a pathway up towards 2 large yellow pillars with white trim. Turn right at the pillars and then either walk up the stairs to the landing (Studio II) or lane (Studio I)
